Freshet and Tangled Wires Delayed Auto Travel

M. A. Bancroft says no more week end trips by automobile this year. He has tried it twice and had a dose of a time. He was caught at Camp Cambridge in a freshet and wash out and in Canada, N. H., in a snow storm and the road for many miles was littered with telephone poles and wires and covered by a foot of soft snow.

That was last Sunday. No more of it this year! He has put his car up! In Upton, perhaps he was more frightened than hurt. There were seven of them with three cars and they had a jolly time in helping each other along.

At True Durkee's it looked as though the dam was going out and for safety they took to high ground and waited for the water to subside so they could safely cross the bridge.

Road washouts were so deep in places that their cars would go in almost out of sight. That's the story.

Bodies of four deer were being taken along. They were shot by the party. Who were the lucky ones we don't know. Mr. Bancroft hunted a couple of days and Geo. W. Richardson a week. Ed. and Dennis Shaw, Ed. Peaverley, Tracy Pierce and "Abe" Ripley of South Paris were there six to ten days.

"Ben" had spent Thanksgiving with his mother at Manchester, N. H., and that is how he got into the snow and telephone wires, Sunday.

To correspondents: We consider you as our accredited agents for the section in which you live.

Please suggest to neighbors that they subscribe for the Advertiser through you. Send in the names and money and receipt will be forwarded.

J. Y. Keazer, the David Harum of the North Country, from Colebrook, N. H. bought a coon's pelt last Tuesday. The purchase was made at the Wearies and \$6.50 was the price named.

Mrs. Donzella (Goodwin) Russell, forewoman of a shoe factory stitching room in Lowell, Mass., spent Thanksgiving and the balance of the week with her parents, D. W. Goodwin and wife and relatives in this vicinity.

There has been a scarcity of "alky" for auto radiators the past week. Automobiles are in general use and only a few have found winter storage.

SPECIAL INDUSTRIAL EDITOR

It is issued with the regular edition of this week. It is much larger than we expected at its inception and has required an amount of time to produce.

The delays, owing to conditions beyond our control, have been many but our patrons have been patient and we are pleased to bring out as large a representative gathering of business interests of the vicinity as is shown.

We wish to thank all who have assisted us and assure them that we appreciate their efforts in advertising the Twin-Towns and and industrial community of which it is the center. Extra copies will be supplied to all who wish to send the paper to their absent friends. Price five cents each. Address this office.

Lodge Notes

Mt. Hope Rebekah Lodge will hold a regular meeting, Friday evening and the work will be completed. After the work, a musical program will be given in charge of Mrs. Gertrude Hosmer. A buffet lunch will be served in charge of May Pride, Jessie Morrell, Nettie Neviers, Ida Noyes, Harriet Sawyer, Walter Pride and Joseph Morrell.

A second nomination of 1925 officers will be held at the next regular meeting of the American Legion Auxiliary, Wednesday evening, December 10, at Moose Hall and a large attendance is expected. Meeting will open at 7:30. One new member was received into the Auxiliary at the last meeting.

Harry Rust Women's Relief Corps will hold regular meeting Saturday evening at K. of P. Hall at 7:30 o'clock. The annual nomination of officers will take place and a large attendance is urged.

Elizabeth Crockett Blake Tent, Daughters of Veterans, held a most interesting meeting, Friday evening, with good attendance. After the business session, Frank Cox, who celebrated his 81st birthday on this date, was given a party and presented with a beautifully decorated cake, which was cut and distributed. Mr. Cox found the thimble Mrs. Emma Swan button, Mrs. Lola McAllister the ring and Will Bickford the coin. A penny lunch was served in charge of Mrs. Della Bickford, Mrs. Nettie Neviers, Mrs. Hatfield Harvey, Mrs. Lola McAllister. Several guests were present and the hour was most enjoyable.

A stated communication of Oxford Royal Arch Chapter, No. 29, will be held, Wednesday evening Dec. 10, with work in the P. M. degree.

Annual Danger Period Closes Open season on big game closed last Saturday, on the fading of daylight. Large quantities of deer and bear have been killed, and several hunters.

It is suggested that the number of deer that can be legally killed be reduced to one and that the bounty on a bear be repealed and Bruin in the future be protected and classed among the game animals of the State. There is talk and considerable good sense pro and con regarding the size of the licence fee for residents of the State. This will be thrashed out at the coming session of the legislature.

Plint's Magalloway Camps Closed Pearl F. Plint and wife were in town, Wednesday. They closed their camps in the Magalloway, Nov. 26, and came down the lake in a boat. There was some ice about the shores.

The fishing and hunting for the season of 1924 has been more than an average. There was an apparent abundance of big game in the valley. The hunters were numerous and well rewarded.

No logging is to be done "up river" this winter, consequently the Little and Big Magalloway will be free for fishing as soon as the ice is out in the Spring. Mr. Plint expects to find work in Bethel this winter and Mrs. Plint will rest up for next season.

E. M. Strother, East Oxford, has a wonderful dog. It really runs down and catches foxes. It got two this season. The dog is a female and is a mixture of Collie and Airedale 7 years old. Strother was in town, Tuesday, with fur for sale.

Do Your Shopping at Home

Home-spent dollars work for all of us every hour of every day we keep them here. They make this a better place in which to live. They make this a better market place for buying and selling. Home-spent dollars together with the character of the people build up the community. As a community prospers, so do the people who live and work in that community prosper. This is not nice theory—it is a plain but important fact.

Lester Witham returned from the C. M. hospital on Thanksgiving Day, where he had been thirteen days following an operation for chronic appendicitis. He is gaining rapidly.

There will be nomination of officers and an oyster supper at the next regular meeting of Knights of Golden Eagle, Wednesday evening, Dec. 10.

Evening work has been necessary and their shop under the Norway National Bank rooms will be open the next few weeks every evening except Tuesday, Friday and Sunday.

Mrs. H. L. Bartlett and daughter, Alice, returned to Needham, Mass., Sunday, after spending the holidays here. They will be here for a week at Christmas time.

Mrs. Laura Thurston and two children, Sara and Abel Thurston, Mr. and Mrs. Arthur Hunt and Mr. and Mrs. Robert Hunt of Norway, Mr. and Mrs. L. L. Briggs and Mrs. Margetta Thomas of Paris were guests over the holiday of Mr. and Mrs. Fred L. Staples and Mrs. Sarah York at Oxford Station.

Also strict orders have been issued for them to arrest and detain any person appearing on the highway after January 1st with a 1924 number plate on their car. Hence its good judgment to put the new plates on as soon as you receive them and keep your car in the garage until you get a number plate for 1925. Don't forget! It will save trouble!

Now Lightens With Happiness

A bad back makes you gloomy.

Can't be happy with continued back-ache.

The aches and pains of a bad back are frequently due to weak kidneys.

Doan's Pills are recommended for weak kidneys. Ask your neighbor.

So Norway citizens testify.

Mrs. Orville Palmer, Lower Main St., Norway, says: "I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes, I was all right, so I gladly recommend Doan's."

NOW IS THE TIME

If with pleasure you are viewing, any work a man is doing, if you like him or if you love him, tell him now. Don't withhold your approbation, till the person makes orations, and he lies with snowy lilies o'er his brow. For no matter how you shout it, he won't really care about it, he won't know how many teardrops you have shed. Mrs. Lena May Haggood, widow of Sherman Haggood of Portland, died Friday morning at her home in Portland. Services were held at the home of her husband's nephew, William Berry, in East Fryeburg, Sunday afternoon at 2 o'clock. Mrs. Haggood was the daughter of the late Wyman and Eliza Harnden and was born in East Fryeburg 52 years ago, but with her husband, who was also a native of Fryeburg, moved to Portland thirty years ago.

Mrs. Haggood has been an invalid for several years, confined to her bed. She was a very sweet, unassuming woman and had many friends, who were very fond of her. She also leaves one brother, Elmer Harnden, proprietor of the Argue Not Inn in Fryeburg to whom much sympathy is extended in the loss of the last member of his immediate family.

Mrs. Sawyer's reminiscences of seeing the boys in blue march away and of assisting in knitting, sewing and packing boxes to send to them were intensely interesting to those who were privileged to listen to her. Albert Hill, Senior Vice Commander Dept. of Maine, was also a guest of the Circle and made very interesting remarks as he always does.

He is one of our most active, dependable citizens and his numerous friends wish him a pleasant winter.

Mr. and Mrs. Lord came from Berlin, Wednesday, they, with the family of Oneal Mills, were marooned at their camp for two days by the flood that swept the place the week before, which was caused by the breaking of two dams above them.

Henry Bennett's wife and two children were with her parents in North Waterford at the time and escaped the fearful deluge. Large board piles and a logging sled were swept away like straws.

Large trees coming down stream just escaped hitting their camp, the water rose nearly to the windows and came up within an inch or two of the beds. They expected the camp would go with the flood but were fortunate enough to be left standing. We are glad we wasn't there to see.

Mr. Penfold, who is in the Marine Hospital, was the recipient of a wonderful box of goodies from the church of which he and his wife are members in Paris. After all the kindness shown them it was a sad Thanksgiving for Mrs. Penfold and two children as they dined alone, still they have many blessings to be thankful for.

Obituary

Mrs. Ida E. Denison
Word of the death of Mrs. Ida E. Denison, widow of the late Arthur E. Denison, which occurred Monday in her home at the home of Mr. and Mrs. Herbert R. Denison, came as a distinct shock to many relatives and friends in Norway. Mrs. Denison, who, with her sister, had been spending the summer at her summer home in Meredith, N. H., came to Harrison about a month ago for a few weeks' visit. She was taken ill the 22nd and continued to fail until the end. The cause of death was pronounced as myocarditis.

Mrs. Denison was a native of Cambridge, born December 13, 1849. She was united in marriage with Mr. Denison, October 29, 1876, and for a short time after their marriage they lived in Norway, when they went to Cambridge and as long as he lived they resided there. Mr. Denison was a prominent lawyer in Boston and passed away four years ago. Since his death, Mrs. Denison and her sister, Miss Ella Wright, have lived together and during the summer months have lived at the Denison summer home in Meredith.

Last winter they were in Norway several months at the home of Mr. and Mrs. Charles G. Blake, Cottage Street, and during their stay Mrs. Denison renewed many old acquaintances. They were planning to visit in Norway again this month. Mrs. Denison had apparently been in her usual health and her passing seems very sudden. She leaves one son, Wirt Denison of New York, and the sister, Miss Wright.

Private funeral services were held in Harrison Tuesday afternoon, from the home of Mr. and Mrs. H. R. Denison. Mrs. Charles G. Blake, Mr. and Mrs. Lawrence H. Denison, Mrs. C. S. Tucker and Carrie Tucker attended. H. R. Denison and Miss Wright accompanied the body to Cambridge for interment, Wednesday.

Ladies' Circle Fair and Entertainment
The Ladies' Circle of the Congregational Church held its annual fair in the vestry Tuesday afternoon and evening, with Prof. Joseph E. Connor of Emerson College of Oratory, who entertained in the church auditorium, Wednesday evening.

Yellow and white was the color scheme for the booths where many useful articles were sold and the decorations were tastefully arranged.
Sweets, including fudge, chocolates, lollypops, etc., were sold in the booth where Marion Welch, Elizabeth Bartlett, Marita Cushman and June Smith presided.

Home cooking was temptingly displayed at the table where Mrs. Alice Smith, Mrs. Dora Brett, Mrs. Minnie Herriek, Mrs. Jessie Morrell and Mrs. Helen Borneman talked up the strong points and made many sales.
The fancy work was shown in a booth occupying a conspicuous place. So large was the stock in trade that all embroidered articles were transferred to a side table where they appeared to advantage.
Many dainty creations for Christmas gifts were sold from the large variety on each table. The ladies who were responsible for the beautiful things displayed were Mrs. Blanche Smith, Mrs. Alice Stearns, Mrs. Carrie Swett, Mrs. Georgie Swain, Mrs. Dora Brett, Mrs. Florence Bradbury, Mrs. Emma Buck, Mrs. Blanche Tubbs, Mrs. Marion Jellicott, Mrs. Tena Burnell, Mrs. Bernice Greenlaw, Mrs. Fanny Clark, Mrs. Grace Cushman, Mrs. Alice Smith, Mrs. Ethel Luck, Mrs. Lilla Locke and Mrs. Clara Luck.

A large assortment of aprons in percale and gingham, many with various combinations of trimmings, found a ready sale. Mrs. Emma Buck, Mrs. Mary Ann Greenleaf, Mrs. Lena Andrews, Mrs. Edith Day and Mrs. Esther Anderson, was the committee in charge of this department.
A mystery booth never fails to make good and the one carried on by Mrs. Gertrude Libby's Sunday school class, No. 9, lived up to the general rule. Nestle wrapped packages containing good trades for a small price, tempted the young folks and business was brisk. Mrs. Libby was in charge, her nimble sales girls were Sarah Thurston, Ellen Tubbs, Alice Brown, Elizabeth Sanborn, Margaret Cummings, Helena Wentworth, and Florine Whitman.

The Japanese Tea Room located in the small vestry proved an attractive place where refreshments of various kinds might be purchased. Appropriate decorations added not a little to the success of this part of the fair. Mrs. Charles Chick was chairman, and assisted by Mrs. Gertrude Libby, Mrs. Harriet Brown, Harriet Knight, Rose Hamilton, Mrs. Walter Luck, Mrs. Elizabeth Pearl, Mrs. Lida Drake, Mrs. Hattie Smith, Mrs. Nettie Nevers, Mrs. Marcia Millett.
The sale continued through Tuesday afternoon into the evening, when a free entertainment was provided under the direction of Mrs. Amy Tracy and her daughter, Mrs. B. Anderson. The program included piano solos by Evelyn Saleeby; readings by Charlotte Longley; instrumental duet, Albert Clark, piano; Paul Brown, violin; vocal solos, Dorothy Anderson.

On Wednesday afternoon from 5 to 8 o'clock, the sale was continued in a cafeteria lunch served. The regular supper was omitted.
Wednesday evening, Prof. Joseph E. Connor of the Emerson College of Oratory, Boston, delighted a large audience with his readings. The play "The Gypsy Trail" was given, introducing numerous characters in a way to make each seem a distinct type and real. Prof. Connor is one of the best known among the popular readers of Greater Boston and has appeared with Chautauques featuring only prominent artists.

Law Suit Follows Fatal Accident
A law suit has grown out of the accident which occurred Sunday, August 3, last, at the four corners near the Sumner Davis place, on the Harrison road, in which Abram Smith, 26, of Waterville, was killed and Miss Blanche Butler, a waitress, had a broken wrist and several other injuries.
It is a civil suit brought by Isaac Dansky of Waterville vs. Eimo Kotimaki of Monson.

Barle W. Davis, deputy sheriff, summoned several witnesses from this vicinity. Among those who testified was W. A. Bicknell, Norval B. Brown of Norway; Jas. H. Stone, Lirri Lempi Murni of Harrison.
The witnesses started last Monday and the trial is on this week at Waterville.

The Ladies' Circle of the Universalist church will meet Friday afternoon at the usual hour with Mrs. Lizzie Sampson, Bridge Street.

The business has enjoyed a continuous prosperity and the caskets manufactured at this factory are always a quality product as large numbers are carried in stock and orders can be filled at any time either at retail or wholesale.

On visiting the factory one is impressed with the dignity of the men and their business. Everything from the fine wood, the sterling trimmings represents perfect order and elegance and one feels assured of getting just what is wanted. The business is prosperous and deserving of the success it has won.

GEORGE TIRRELLS
Locke's Mills

One of the way-side stores that ministers in various ways to the people in this vicinity and also to the motorist is that run by George Tirrell, who is known for his beautiful scenic painting of the hills and lakes. These paintings have received special mention and show his ability as an artist, and have been much appreciated by his patrons. For the traveler they provide light lunches, which he can either partake of under their hospitality, or carry along with them to some secluded spot where nature has lavished beauty in surroundings and view.

The ice-cream parlor makes an oasis in the desert where one may be refreshed with cream of the smoothest texture in popular flavors, and served by Mrs. Tirrells who ably assists her husband. While waiting to have your tank filled and re-stock on the best of oil and food, you will be sure to want some of their candy for the ladies of the party, and good cigars for the men—you will be sure to be pleased with your purchases at this snappy store.

DEARBORN SPOOL CO.
Bryant Pond

The Dearborn Spool Co. was established over fifty years ago and from that early date to the present time has been doing a successful, ever increasing business.

The business was incorporated in 1907 and T. B. Cole became president and general manager and O. C. Rich was made treasurer and clerk.

The company is one of the best known business concerns in this section of the County. For more than 50 years they have made all the spools used by the N. T. Clark Thread Co. In addition to the large number of spools manufactured they turn out large quantities of dowels and many novelty turning articles. Much of the lumber used at this factory is purchased from the near by farmers, thus proving a source of constant income to many in the vicinity.

The product from the factory finds a ready market and a county wide demand that is constantly increasing. The business is very prosperous and gives employment to a large number of men and women. The workers are thrifty and happy, many own their own homes and some have been with the company since it first started, enjoying and sharing their prosperity. A surprisingly large number of these workers answered the countries call and purchased thousands of dollars worth of Liberty Bonds and still have them in their strong boxes.

The management is conservative but up to date. The factory has every modern equipment and device for the safety and convenience and comfort of the workers. The machinery is the latest type and swift in its operation. An atmosphere of prosperity is felt every where and the business is a success of which Bryant Pond and Oxford County may well be proud.

The present managers realize the importance of keeping every thing up to the minute and are doing it in every particular and under their guidance the business is bound to go on to a much bigger success.

ALBANY

Golden Wedding

It came to Mr. and Mrs. James A. Kimball while attending the Round Mountain Grange, Saturday, November 22, that the following Friday, November 28, would be the fifty-second anniversary of their wedding day and when they spoke of it the members present unanimously decided that nothing would give more pleasure to their relatives, neighbors and friends than an opportunity to meet and honor to them and this quite unusual occasion so on Friday evening Round Mountain Grange hall presented a gay scene as there had assembled guests from Norway, Bethel, Waterford and a large number of citizens of Albany. The stage was prettily decorated with crepe paper in red, white and blue, and with their new electric lights, the hall was made very attractive for the occasion. Mr. and Mrs. Kimball received their friends at the head of the hall, and all were glad to extend congratulations, and in return received a cordial welcome and words of welcome. A few minutes of sociability among those present ensued, after which Leon Kimball assisted by Mrs. A. E. K. Grover presented a short program.

Just before the exercises, Mrs. Grover spoke of what a great privilege it was to meet and do honor to these dear friends, who are young in heart, and keenly alive to all the exigencies of life in all its phases.

A selection by Flint's orchestra opened the program and one heartily enjoyed. The anniversary poem was written and given by Mrs. Lydia Lord Shedd, who is of the circle of relatives. Leon Kimball (by request) sang the old-time song, "When You and I Were Young, Maggie," accompanied by his sister, Hazel Wardwell. A poetical tribute was given by Mrs. A. E. K. Grover, prefaced by reminiscent remarks and quotations from Longfellow's beautiful poem "The Song of the Crane." Mrs. Hazel Kimball Wardwell sang "Put On Your Old Gray Bonnet," accompanied by Leon Kimball.

Among those who responded when remarks were called for were, Mr. and Mrs. A. L. Copeland, Mr. and Mrs. Eugene Andrews, Mr. and Mrs. W. L. Beckler, Mr. and Mrs. Nance Andrews, Mrs. Moses Kimball, Mrs. Evis Cook, Bert Flint, Linwood Flint and others. The Grand March, which followed, was led by Mr. and Mrs. Kimball. Several numbers of old-time dances followed, and many with the dignity of years, stepped as lightly as in days of yore.

A beautiful and delicious set of confections, walnut ice cream and fancy crackers was served by the children and grandchildren, Mr. and Mrs. Leon Kimball and son, Ivan, and Mr. and Mrs. Roy Wardwell and son, Arthur. These were assisted by a number of the younger ones present.

Dancing followed and as the time for good nights drew near, Mr. Kimball, in behalf of his wife and himself, extended thanks for the great pleasure it had been to have their friends with them to help them do honor to their fifty-second wedding day, and their Golden Wedding day, which occurred in 1922, and expressed gratefulness that he and his good wife were in comparatively good health and could so fully enter into the joys of their lives and of the community at large. Their son, Cecil, and wife, and granddaughter, Verna, were unable to be present, which was sincerely regretted by all present.

James A. Kimball and L. Edwina Cross of Bethel were married at North Waterford, November 28, 1922, by Rev. Wellington Newell. Mr. Kimball is a life long resident of Albany and he, with his family, live on the old homestead. Leon and family live near him. Cecil and wife in Norway and Hazel (Mrs. Roy Wardwell) with her husband and son, reside with them. They have four grandchildren, Verna L. Ivan C. and Winola Lucy Kimball and Arthur Eugene Wardwell. Mr. Kimball's brother, Moses Kimball of Norway, a wife and the Cyril War, owing to feeble health, was not able to be present and many relatives of Mrs. Kimball regretted their inability to be present.

Mr. and Mrs. Kimball are active members of the church and Circle, faithfully attending the little white church on the hill which like a sentinel has stood for so many years. They are both valuable members of Round Mountain Grange, vitally interested in all that pertains to the welfare of the town, schools and general uplift of the community. May they live many years to enjoy the richness of life which has come to them among the dear loved old Oxford hills.

The warm days are over. Yet the sunshine lingers still. When James his fair Edwina brought To his home on Kimball Hill. We count the years of their wedded life, Till fifty and more are told. And we come tonight to celebrate The wedding of purest gold.

'Twas in the days of early youth, That James in his Sunday best, Went over the hills to Bethel town, Where dwelt the object of his quest. For here there lived a damsel fair, As you find in many a day, And he could not be blamed a single bit, For taking her away.

Full well he knew what was his gain, And he could not be blamed a single bit, For taking her away. Full well he knew what was his gain, And he could not be blamed a single bit, For taking her away.

But she was cross in name alone, He vowed that she should change her name For his, without delay. Her heart was like the damask rose, In the days when she was young, And to propose James found it hard, And he almost shed his tongue.

But his courage with his great desire, And her heart sang loud with joy, For she knew that she had found in that loyal youth, Pure gold without alloy.

We know what through the passing years, They have stood for truth and right, For Deacon Kimball and his good wife, Have followed their "Beacon Light." Two boys were sent to bless their lives, Leon, the oldest son, Then Cecil came to this happy home And their crown of joy seemed won. But still another blessing came, Hazel with gift of song, Who should care for them in their later years, When the shadows of earth grew long. And children's children they have seen, Making their hearts rejoice, As they listened to their prattle, And the music of their voice. They have gathered the gold of fifty years, Of years of shadow and sun, And laid it up in that City Where no moth or rust can come. So we clasp their hands, and bid them "God Speed."

May their years be many still Ere the sun of life goes down for them Beyond the western hills. And when for them the morning breaks Over the eastern skies, May the sun of "Life Eternal" On their joyous vision rise.

With minds so active and hearts so light, You cover wedding and Golden, too, We have helped you celebrate, And we hope for you the Diamond comes Ere you enter the "Golden Gate."

MEMORIES

The freight glows with steady flame, As I sit and dream of the past again, My heart throbs high with memories sweet, Memories that I alone may keep. Oh! the day sweetheart when you were near, When I held you close in my arms, you dear I looked in your eyes and found heaven there. No days to come will ever compare, Your slightest wish was my command, Your lips like a berry's scarlet stain. You held my heart in your little hand, Your slightest wish was my command, I'd give all else in this world if I knew I could open my arms and find there you.

CHRISTMAS TIME

Written for the Advertiser

By Josephine M. Learned, So. Waterford. Christmas is here at last, Santa Claus is coming fast, He must be awful tall, And too, he's getting pretty old, To come from the far, far North.

He has many a tree to trim, But hangs the presents on the limb, But think of the stockings, too, Santa Claus has a lot to do. He has an awful stack of toys To give the good girls and the boys, But if they're naughty, just you think! Santa can tell it in a wink.

And then he goes, as still as a mouse, To some other good girl's and boy's house. So when you hear Santa coming to your house You want to be as still as a mouse And he will leave you lots of toys, I mean if you're good girls and boys.

—WINNIE GRAY CURTIS, North Bridgton, Maine.

USE HER RIGHT

The telephone girl sits in her chair And listens to voices from everywhere. She hears the gossip she hears all the news, She knows who is happy and who has the blues, She knows all our sorrows, she knows all our joys, She knows every girl that is chasing the boys, She knows all our troubles, she knows all our strife, She knows every man that is mean to his wife, She knows every time we are out with the boys, She knows the excuses each fellow employs, She knows every man who's inclined to be fast, She knows of your future as well as the past, In fact there's a secret 'neath each sunny curl. Of the quiet, demure little telephone girl, If the telephone girl should tell all she knows, She'd turn all our friends into bitterest foes, She'd show a small world that would soon be a gale.

Enough us in trouble and land us in jail, She'd let go a storm which gathering force, Would cause half our wives to sue for divorce, She'd get all our churches mixed up in a fight, And turn all our days into sorrowing night. In fact she'd keep all the town in a stew, If she told the tenth part of the things that she knew, Now doesn't that make your devoted head whirl, When you think what you owe the telephone girl.

—WINNIE GRAY CURTIS, North Bridgton, Maine.

BOOST OXFORD COUNTY

Let the World Know What We Have to Offer

Boosting Oxford County is just what the Norway Advertiser is always doing and now it is up to us to pitch in and help out the editor of the paper. As correspondents we can write all the good things possible about our own community. There are a lot of good things to write about. There is no better state than Maine and no better part of Maine than up here among these beautiful Oxford Hills.

A new day is dawning for Maine. Our state is finding itself at last. It finds itself the great undeveloped state of the Northeast with an area as large as the rest of New England, rich in its natural resources of fertile farming lands, timberlands, water powers and mineral wealth. In addition to all this it contains unlimited possibilities as a summer resort, is growing in popularity as a winter resort and, what is best of all, is growing in favor as a state for red blooded people to work and play in the year round. Our climate is the very best. Our winters may be cold but no colder than many of our other northern states. There are always many beautiful days in a Maine winter when the dry, clear air and bright sunshine make life worth living.

As boosters of Oxford County, let us send in to our editor all the good news we can about our neighbors, our town, our Grange plans for improvement, schools, new buildings and everything that folks like to know about. Oxford County is going forward, conditions will change and continue to change but it will be a forward movement. We are glad that California, Florida and other states are so prosperous and growing and we are still more glad Maine is going right ahead with the rest of them. The resources are here. Let us make use of them. Let us boost Oxford County through the Norway Advertiser for all we are worth and the reward will surely be ours.

DR. R. N. HATT

The following is taken from the Honolulu Star Bulletin, regarding the remarkable work done by Dr. R. Nelson Hatt, a native of South Paris, who recently returned to West Paris:

From a brother in his profession there has come this generous tribute to Dr. R. N. Hatt, "the children's doctor":

"He has been like a gift from the gods" and it is with real sorrow that we bid him aloha.

"He has found happiness in building a lasting monument from the discarded crutches and kindly smiles of his patients and the gratitude of their parents."

"Dr. Hatt must have indeed seemed like a gift from the gods" to the crippled children, who under his skilled and kindly care have been made whole. A gift indeed, from God himself. Even as Christ who healed the leper, made the lame to walk, and raised the dead, was a gift from God.

This is said in all reverence. Modern medical science promises miracles. The blind are made to see, the bed-ridden take up their beds and walk; the crooked are made straight, the deformed made whole.

Modern medical and surgical skill, plus big hearts to feel and brains to plan—these perform miracles in our hospitals and at home.

Daily at the Children's hospital, in the ward taken over by Aloha Temple of the Shrine, these miracles have been visible. Some worked more slowly than others. Some cases of course, baffled even modern skill and science and desire to aid.

But for scores and scores of children the miracle has been a perfect thing. It has given them the power to play. It has given them the heart to smile, to laugh, to hope. It has opened to them an active, useful, happy life. It has opened heaven upon earth to their wistful eyes.

Dr. Hatt is about to leave Hawaii. His successor, Dr. J. Warren White, is here—another man of heart and hand. Dr. Hatt leaves with the respect of his fellow physicians, the love and affection of the children whose bodies he has cared for, the liking and good will of everybody.

A great work, this that Hawaii Shrines have undertaken—the care of crippled children. As noble a work as the world offers. A work that does them and all Shriners credit and what a blessing it is to Hawaii's children!

RADIOLA Super-Heterodyne

Second Harmonic

Radiola Super-Heterodyne is a six Radiotron non-radiating broadcast receiver employing the Super-Heterodyne—second harmonic principle in a more sensitive and greatly simplified design. The cabinet is beautifully finished in mahogany, equipped with a leather handle at the top for carrying from place to place. The mechanism lies beyond the control panel in the center and ample space is provided in the two end compartments to accommodate all batteries.

The loop antenna is concealed in the back of the cabinet which makes for greater portability. Provision is made, however, for a larger external loop, should one be desired.

Entirely new inventions and developments make the six Radiotrons, used in this circuit, deliver results equal to eight or nine tubes.

Rafter joined the firm and five years later Mr. J. J. Carroll and F. J. Thompson joined the activities of the business.

The enterprise was a success from the start. The snappy styles and variety of the McKay shoe company, which found a quick sale among the ladies in a nation who were tired of the same old styles, has played a large part in the success and sensible. No shoe maker could make not warranted by the firm. The excellency of the goods manufactured, the reasonable price for which they are offered and the straight-forward business methods have earned the firm a reputation that enables them to carry a reputation with goods in every part of the country. To make shoes that shoes the women of today will buy, and to design and manufacture such shoes is no easy task, but the designers and producers of the Carroll, Jellyerson shoes seem to have mastered this art. The tailor goes back again and again to the jobber for more of these shoes that are just a step in advance in style and quality of production.

About 450 well paid employees are regularly employed many of them living the comfortable homes in which they live. A good restaurant is run in connection with the factory where the employees may purchase meals at practically cost. The factory has the advantage of pure air and sunlight and a measure of prosperity and good that is realized everywhere.

Mr. Jellyerson finds time in his busy life to engage in many of the town's activities. His new residence on Pleasant Street will be another example added to the colony of good homes in Norway.

Under the careful guidance of Mr. Jellyerson, who thoroughly understands every detail of the shoe manufacturing business, and Mr. Edward J. Rafter, the very efficient selling member of the firm, together with the other forces of employees, trained in every detail of the work, the Carroll, Jellyerson Shoe Co. has become an important industry, reflecting credit to the town and State.

NORWAY NATIONAL BANK

The Norway National Bank opened its doors to the public, April 15, 1873, and the first patron found them quarters in the room now occupied by Greenland Howe as a music store. Mr. Sumner Burham was the first president and Arthur E. Dennison, cashier. At the January meeting in 1878, Mr. Dennison resigned his position as cashier and Mr. H. D. Smith was chosen to fill his place. Mr. Burham died in 1879 and Mr. William Frost was elected to the presidency. Mr. Frost was succeeded by Mr. Henry M. Beare, who died in 1894 and Mr. C. N. Tubbs became president. In 1919 Mr. H. D. Smith resigned his position as cashier and was, without solicitation, elected to the presidency of the bank and still holds and honors the office. At the same meeting his son, Mr. Fred E. Smith, was elected cashier to fill the place his father has so efficiently and successfully filled for a period of forty-four years.

The bank removed its offices to the Opera House Block in 1892. This block was destroyed by fire in 1894, but all the books and papers of the bank were found safe and undamaged in the vaults. A new brick block was erected the same year and larger quarters fitted up for the bank, where a constantly growing business has continued to enlarge its field of activities. They are members of the American Bankers Association, the Bankers Protective Association and the Maine Bankers Association. A new electric vault alarm has been recently installed. The capital stock is \$500,000.00; its surplus \$100,000.00; the total deposits at the close of business Nov. 3, 1924, were \$1,089,664.05; and the total assets of the bank \$1,375,006.20.

The bank does a large and safe business. Its deposits are rapidly increasing. Discounts and loans show good gains. Funds transferred by wire have become an important part of the business. There is a travel and foreign department. In fact, all business transacted at the larger National banks is well served at the Norway National. Its president is a Norway man, all the time with Norway's interests foremost. He is a banker of natural aptitude and long experience.

His son graduated from Bowdoin in 1906 and began his connection with the bank in September of the same year. His election to the office of cashier a position which his college training and long bank experience had adequately qualified him, was a popular move. He wants the facts in all his business dealings. His judgment of men and events is good and he is a careful worker with the courage of his convictions.

The present officers of the bank are: President—H. D. Smith. Vice President—H. B. Foster. Cashier—Fred E. Smith. Asst. Cashier—E. K. Fogg.

Under the able management of these men the Norway National Bank is bound to continue its course of prosperity and service to its patrons and to stand in the future as it has in the past, one of the State's soundest financial institutions.

C. B. CUMMINGS AND SONS CO.

This is one of the oldest established businesses in the State, dating back to 1860 when Mr. C. B. Cummings was engaged in manufacturing cabinets and furniture. Later the plant was known as The Pancake Shop where heels for ladies' shoes were manufactured and still later a chair factory was established and operated by Mr. Cummings.

In 1894 the entire plant was burned. It was shortly rebuilt and the manufacture of furniture began. Mr. E. S. Cummings, son of C. B. Cummings, invented and perfected an entirely new machine for making dowels, "Those smooth ones," and in 1901 started manufacturing dowels at Bemis, Maine. The business enjoyed a healthy prosperity and the company with its factories at Bemis and Norway, became the largest producers of dowels in the world.

In 1921 the factory at Bemis was destroyed by fire. At that time the business was transferred to Norway and the factory enlarged to take care of this extra business. The machines which produce the dowels are owned and controlled by the company and the machines cannot be found, or the dowels produced in any other factory.

The company, in addition to being the largest manufacturer of dowels, does a big business in box shooks and long lumber. Their saw mill, located at the outlet of Lake Penesseewassee, is electrically operated and turns out large quantities of lumber each year.

The lumber used in these mills is cut on the company owned lots and purchased from nearby owners, thus proving a constant source of income to many in the vicinity.

The dowel factory is operated by electricity. Individual motors are installed at each machine. The Box Shook factory is steam propelled, the exhaust steam being used to heat the buildings on the south side of Main Street as far down as the Tucker Block.

The company also operates a large grain and feed mill on Cottage street, near the Grand Trunk Station, and another at Mechanic Falls. The names of about 100 well paid people are found on the weekly pay-roll and the business success is but another tribute to New England thrift and industry.

In 1916 the company was formed into a corporation of which Stephen B. Cummings is president, Edwin S. Cummings vice president and general manager, and George H. Cullinham, clerk and treasurer. Mr. Cummings devotes considerable of his time and attention to the purchasing of lumber and to the manufacturing end of the business, but is always in close touch with every detail of the industry.

He is just completing a new and attractive house at the corner of Deering and Pearl Streets. The house is oil heated, sets well back from the streets and will be fronted by spacious lawn and shade trees. It is an excellent example of modern home building.

Mr. Cullinham began his connection with the company at Bemis, Maine, over 21 years ago. Soon after he came to Norway and took the position of bookkeeper. In 1916, at the incorporation of the business, he was elected as treasurer and took full charge of the finances and office end of the business, a position which by natural aptitude and experience he is eminently qualified to fill. His cement bungalow home, located on Orchard Street, commands a fine view of the village and surrounding country.

Imported Peat is used for litter, as it takes up all moisture and there is little or no dust. No chickens are hatched on this farm, when the day old chicks arrive they are put in the brooder house and made friends of, for every bird is a pet, and as Caesar knew every soldier by name, we can by a stretch of the imagination, believe Miss Jewett has pet names for her brood. Home Plant, South Paris, Maine

West Paris Plant

Sawmill at Crystal, N.H.

Works of the Paris Manufacturing Company and Branches

PARIS MANUFACTURING COMPANY
South Paris

Paris takes just pride in having located in its midst the plant of the Paris Manufacturing Company, which is one of the largest and most modern equipped establishments of its kind in the country. The history of this industry dates back to 1861, when Henry F. Morton, living at that time in West Sumner, was using the kitchen of his home for a shop, where he made a few sleds by hand. He made the best sleds he could, building into every one his sturdy, honest character, thereby establishing a confidence in his product which was destined to become world-wide.

The attractive designs and quality of production at once found a quick sale in the constantly broadening market, necessitating frequent changes and larger quarters. He moved to Paris in 1870, added a few new lines to his product and increased his output. In 1883 the business was moved to its present site at South Paris.

Children's and office desks were added to the line and the name changed to the Paris Manufacturing Company. Unfortunately, the entire plant was destroyed by fire in 1886, but was immediately rebuilt on a larger scale and adequately equipped. Expansion did not stop, however. Continual enlargements of the plant have been necessary to take care of the ever increasing business.

Mr. Henry F. Morton, founder of the business, a public spirited, high minded man, honored in his home town and by all who knew him, died in 1900, leaving the business to a cousin, L. C. Bates, and to his sons, George R. and H. A. Morton, under whose management the industry continues to flourish. A branch factory, where a part of the material used at South Paris is gotten out, was established at West Paris in 1901.

The timber used at these factories is cut from company owned lots and purchased from whoever has quality timber for sale. The company employs from 75 to 100 men in its lumber operations and over thirty horses and two log haulers are in constant service. The amount used each year is stupendous, thus proving a source of constant income to many lumber growers. The factory is a model of present day efficiency. The work rooms are flooded with pure air and filled with sunshine. The operators work under the most ideal conditions. Every modern equipment and device is provided for their convenience. The product gladdens the heart of millions of children and grown-ups.

About 20 modern homes are owned by the company and rented at a very low rental to the employees of the company. The purpose of the company is to keep just a step ahead in its line. From time to time new lines are added, buildings erected and more modern machinery installed. But always and everywhere there is a strict adherence to the ideals of the founder to make the best goods and give the biggest dollar value to be found in this line.

This policy has made the name "Paris" synonymous with "quality" in children's sleds, wagons, furniture, etc. The products of the Paris Manufacturing Company are sold all over the United States and Canada and to a considerable extent in England, Australia, South Africa and the West Indies.

The company fully appreciates the confidence of the public which has made possible the healthy growth of the business and created a constant demand for their product sufficient to keep the plant in practically full operation during periods of depression and good times alike. The present management also realizes the importance of maintaining the reputation which has been won during the 63 years of their successful business history. To this end the plant is built and equipped in the most up to date and

efficient manner. The employees are well paid and happy in their work. A watchful care is maintained over the entire products and every endeavor used to merit the continuous and ever growing patronage of their numerous customers in many lands. That the company is doing this is best evidenced by the fact that many have been regular customers for thirty and forty years and some ever since the first sleds were made, over 63 years ago.

The present officers of the company are: President—L. C. Bates, Treasurer and Manager—G. R. Morton, Secretary—H. A. Morton, Superintendent—C. G. Morton.

No name in Maine's industrial history enjoys a better reputation than the one responsible for the Paris Manufacturing Co. The founder of the business has passed on, but his sterling spirit lives in the present management. A nationally known institution has been developed which will continue to flourish through future years, as different men come and go because of the sound business principles observed in the conduct of the business. It has prospered for over 63 years and is now grounded upon tradition which insures satisfaction to all who deal with the Paris Manufacturing Co.

MASON MANUFACTURING CO.
South Paris

The industrial activities of Maine form many interesting chapters. Into some of them the golden thread of romance is woven. When we think of children's and doll's furniture we are in the land of play romance and naturally give praise to the men who have made all this joy possible. Few realize the magnitude of this toy business. The association of toy manufacturers of the U. S. A. is made up of about 136 factories representing a stupendous investment and turning out millions of dollars worth of toys each year.

The Mason Manufacturing Co. of South Paris is one of the largest and best equipped of these factories.

The power is furnished by a 375 horse power Nordberg Uniflow Engine with direct connected electric generator. Every machine in the factory, from the large band saw, which cuts the logs into boards and planks, to the smallest lathe is driven by an individual electric motor. These machines are mostly automatic. The automatic attachment in many cases is made in the factory machine shop.

The buildings and lumber yards cover over eight acres of land and more than 2,000,000 feet of lumber are used annually. About four car loads of finished products are shipped each day during the busy season.

The lumber from which the furniture is made goes through the factory with almost automatic precision. It leaves the kiln, where it is fully seasoned, and is taken up to the saws, planers, sanders, lathes and boring machines, which fashion it into a great variety of dolls and children's and doll's furniture with very little handling, so closely related is each process to the other. The business has enjoyed a continuous prosperity and year by year the plant has been enlarged and improved. In 1923 the entire plant was changed from steam to electricity without a single shut down, most of the engineering and labor being done by the regular factory force.

The business was founded by Leslie L. Mason over twenty years ago when he began to manufacture toys in the old Shurtleff mill. Three years later the mill was destroyed by fire, but in less than a month the present site was purchased by Mr. Mason and the erection of the new factory begun, which has continued to grow into its present magnitude. There is also a storage warehouse at Chelsea, Mass., under the direction of Mr. C. E. Akers, who has been connected with the company for over twenty years, and a New York office in the Fifth Ave. building, New York City, in charge of G. W. Akers, sales manager for the entire Mason line. Mr. Fay has held this position since 1916.

Mr. Mason, in addition to the building up of this magnificent business, has found time to interest himself in the affairs of the town. He takes an active interest in every progressive movement and many a fortunate one has taken heart again because of his generous aid. His spacious home, Masonville, is beautifully located on the brow of the hill overlooking the factory.

Mr. Mason has been assisted in the building of his business by E. H. Mosher, Gen. Super., Carroll Wilson, Asst. Gen. Super., and Harold Neal, factory sales manager.

Mr. Mosher, whose hobby has always been toys and their creations, has been general superintendent of the Mason Co. for ten years and is a man of wide experience which serves him well in making those nice decisions so necessary to the success of any business. He has designed new lines of juvenile furniture the success of which has greatly increased the factory output. His patented folding round table is one of the most popular of his creations. He also has an experimental toy shop at the rear of his beautiful Pine Street home where he allows his inventive genius full sway. He is very fond of music and has in his possession a Josef Koltz violin about 130 years old.

His spacious home, Masonville, is beautiful and the right man in the right place and conducts the office affairs of the business in an efficient and accurate manner.

Mr. Wilson's engagement by the company, he was for 4 years with the Maine Central R. R. in the auditing department of disbursements. He is known to his many friends and acquaintances as an ardent devotee of the rod and gun.

Mr. Neal is the inventor of Obstacle Golf manufactured by the Mason Co., which is finding a world wide acceptance. Obstacle Golf is a game that has come to stay, and can be used indoors or out and is well adapted to country estates, country clubs, summer and winter resorts.

It is an attractive and interesting game and has an ever increasing army of devotees. Mr. Neal is to be praised for creating something new in this age old game.

The Mason line is known in all parts of the world and the company has a merit earned reputation for turning out the best values in their line.

Much praise is due Mr. Mason and those associated with him in building up an industry of which the town and state have so many reasons to be proud.

MECHANIC FALLS CHAMBER OF COMMERCE

The Mechanic Falls Chamber of Commerce was organized in 1921 by a group of men who realized the need of such a body in the community. It has enjoyed a steady growth, and at present has a membership, including the recently organized Ladies' Auxiliary, of over 125.

Since its inception the C. of C. has been responsible for the locating of two manufacturing industries in town, and has promoted a number of local improvements. A number of further projects are now in the hands of committees whose reports will be acted upon during the coming winter.

The Publicity Committee compiled and issued an attractive folder describing the beauties and advantages of Mechanic Falls. The committee on road signs has already placed several signs in position (and will place others in important locations next spring).

The present officers and directors of the M. F. C. of C. believe that the functions of such an organization are entirely different in a small community than in the city. While the problems of the city C. of C. are concerned chiefly with matters of business and publicity, those of a smaller town are much broader in scope. The village C. of C. serves as a meeting ground for its members for industrial, educational and social purposes, and should unify these varying aims toward the all-around betterment of the community.

Working along these lines during the past year the M. F. C. of C. was tremendously successful providing its members with a definite program of entertainments, arranged along both social and educational lines.

The annual get-together banquet held in January was attended by 150 persons, and was voted a complete success. Mr. E. H. McDonald, executive secretary of the Portland Chamber of Commerce, was the chief speaker of the evening.

The most enjoyable of the strictly social activities was the Minstrel Show which was staged in two evenings in February, the house being packed on both occasions. The show employed local talent exclusively and was staged under the personal direction of two of the members, Mrs. Ruby Briggs and Mr. Elmer Lane. As well as being an enjoyable performance the Minstrel Show was a financial success.

During the winter a series of home evenings was much enjoyed by the members who had the privilege of listening to Mr. A. L. T. Cummings, Manager of the State Chamber of Commerce; Mr. R. N. Atherton, County Agent; Mr. Willis B. Parsons, State Commissioner of Fish and Game; and Mr. Paul D. Sargent, Chief Engineer of the State Highway Commission. All of these speakers talked on subjects relating to the various departments which they represented. These talks were highly interesting and instructive, and the Chamber greatly appreciated the cooperation of these officials.

Two unusual evenings, one consisting of an evening of "Paper" with moving pictures illustrating the various processes of manufacture from the tree in the forest to the finished product; the other being a series of moving pictures showing wild life in the northern woods, some particularly fine pictures being shown of moose hunting in New Brunswick and salmon fishing in Maine.

The final event of the season was the Spring Frolic at Lake Tripp which closed in a most satisfactory way a thoroughly enjoyable and instructive program.

During the winter an orchestra was formed by some of the musicians of the organization and is now known as the Chamber of Commerce orchestra. Their playing contributed greatly to the success of the public entertainment.

The present officers and directors of the organization are as follows: Frederic A. Fuller, President; Ernest F. Smith, Vice-President; F. Guy Campbell, Treasurer; F. L. Waterman, Secretary. Board of Directors consists of officers and Forest L. Mason, Herbert F. Hayford, S. L. Hawley, S. R. Penney, Jr., John C. Goodall.
